Summary

Aspiring Full-Stack Developer currently pursuing a Bachelor's degree in Software Engineering, with hands-on experience in designing and developing modern web applications. Proficient in HTML, CSS, JavaScript, React.js, Next.js, Node.js, and ASP.NET Core, with experience building responsive user interfaces, RESTful APIs, and database-driven applications. Familiar with Software Engineering principles including the Software Development Life Cycle (SDLC), Agile methodologies, Object-Oriented Programming (OOP), Git/GitHub, and software testing. Passionate about solving real-world problems, writing clean and maintainable code, and continuously learning new technologies to build scalable and high-quality software solutions..

Skills

Programming Languages: Java (Fundamentals), Python (Fundamentals), JavaScript

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap 5

Backend Development: Node.js, Express.js, ASP.NET Core, RESTful APIs

Software Engineering: Software Development Life Cycle (SDLC), Agile Methodology (Scrum), Object-Oriented Programming (OOP), Software Requirements Engineering, Software Design Principles, Version Control (Git/GitHub), Software Testing (Unit Testing & Debugging)

Tools & Technologies: Git, GitHub, Visual Studio Code, Visual Studio, Postman, npm

Databases: MySQL, SQL Server, MongoDB (Basic)

Frameworks & Libraries: React.js, Next.js, Basic Angular.js, ASP.NET Core

Experience

Frontend Developer Intern

2 Months

Focus: React.js Development

- Developed responsive and user-friendly web applications using React.js.
- Built reusable UI components and integrated them with backend APIs.
- Collaborated with the development team to improve application performance and code quality.
- Gained hands-on experience with modern frontend development workflows and best practices.

Projects

Rock-Paper-Scissors Game

GitHub URL

HTML, CSS, JavaScript

Tic Tac Toe Game

GitHub URL

HTML, CSS, JavaScript

Edusity Website

HTML, CSS, JavaScript, React.js

Weather App

GitHub URL

HTML, CSS, JavaScript, Weather API

Canteen Management System

[GitHub URL](#)

React Native, JavaScript, AsyncStorage

- Developed a cross-platform canteen management mobile application using React Native.
- Implemented features including user authentication, menu browsing, cart management, and order placement.
- Used AsyncStorage for local data persistence, enabling users to securely store app data on their devices.
- Designed a responsive and intuitive mobile user interface to provide a seamless user experience.

NewsMonkey React Application

[GitHub URL](#)

React.js, JavaScript, React Router, NewsAPI, Bootstrap

- Developed a responsive news application using React.js that displays live headlines across multiple news categories.
- Integrated the NewsAPI to fetch real-time news articles and implemented dynamic client-side routing using React Router.
- Designed reusable React components, including a responsive navigation bar, article cards, and loading spinner for an enhanced user experience.
- Implemented environment variables to securely manage the API key and dynamically updated the document title based on the selected news category.

Class Hub - Academic Management System

[GitHub URL](#)

Node.js, Express.js, SQLite3, HTML5, CSS3, JavaScript

- Developed a full-stack academic management system for administrators, teachers, and students to manage classes, academic records, and assignments.
- Implemented secure user authentication with role-based access control for Admin, Teacher, and Student dashboards.
- Built RESTful APIs using Node.js and Express.js to manage classes, students, marks, assignments, and file uploads.
- Designed and integrated a SQLite3 database for storing user information, academic records, assignments, and submissions.
- Implemented assignment creation with file upload support using Multer and enabled students to submit assignments through the system.
- Developed responsive user interfaces using HTML5, CSS3, and JavaScript with a modern glass-morphism design.
- Added features for grade management, class administration, academic progress tracking, and exporting marks to Excel/CSV.

Fitness Tracker App

[GitHub URL](#)

React Native, Expo, TypeScript, Expo Router, AsyncStorage

- Developed a cross-platform fitness tracking mobile application using React Native and Expo, supporting Android, iOS, and Web.
- Implemented file-based navigation with Expo Router, responsive layouts, and light/dark theme support for an enhanced user experience.

- Integrated AsyncStorage for persistent local data storage and implemented daily fitness quotes, user preferences, and activity tracking.
- Built smooth animations and gesture-based interactions using React Native Reanimated, Gesture Handler, and Expo Haptics.
- Designed reusable TypeScript components following modern mobile development best practices to improve maintainability and performance.

Certificates

JavaScript Certificate – Coursera (2025)

- Learned modern JavaScript concepts, DOM manipulation, event handling, and interactive web application development.

React.js Certificate – Coursera (2025)

- Built responsive web applications using reusable React components and state management.

ASP.NET Core Certificate – Coursera (2025)

- Developed Web APIs, server-side applications, and frontend integration.

Next.js Certificate – Coursera (2025)

- Learned Server-Side Rendering (SSR), Static Site Generation (SSG), and full-stack React development.

Education

Bachelor of Software Engineering

2023 – Present

SMI University

CGPA: 3.10 / 4.00

Intermediate (Pre-Engineering)

2020 – 2022

Govt. Degree College Mithi, Tharparkar

Marks: 908 / 1100
